DATASHEET

TruTac

TruTime

TruTime is a web-based time and attendance and HR clocking system for analysing and managing working time for drivers and employees.

TruTime accurately records staff attendance using digital tachograph driver cards or employee smart cards, providing clocked versus tacho data.

TruTime used alongside TruControl records all lead in and lead out, giving valuable data if drivers incorrectly enter EDR/SDR, providing a complete working time directive solution.
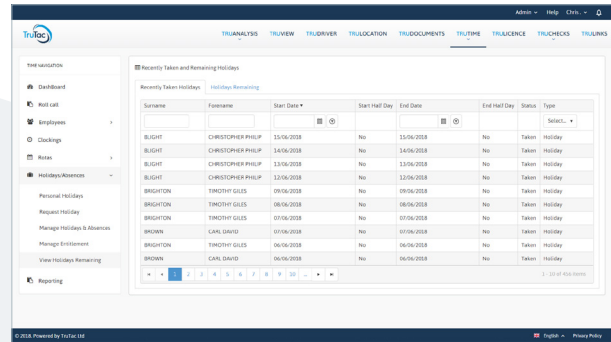

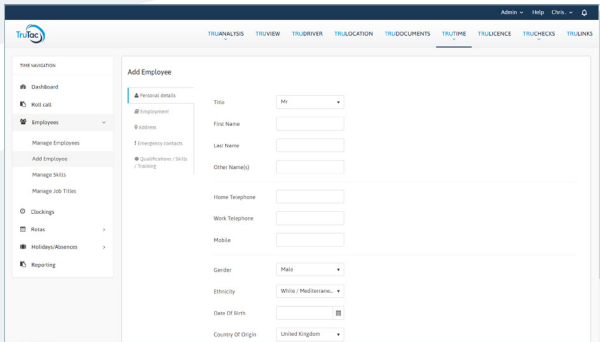

✓ **Save time & money**   ✓ **Reduce labour costs**   ✓ **Increase payroll accuracy**

TruTime

Features

- Manage personnel data, training records and attendance in one system

- Integrates with TruAnalysis for driver hours control

- Utilises digital tachograph driver cards and smart cards

- Separate portals/security levels for managers and users

- Manage holiday and absence

- Detailed reporting

Benefits

- Reduce labour costs by managing overtime

- Reduces administration costs

- Intelligent shift planning

- Increase payroll accuracy

- Integrated compliance and WTD hours law solution

- Full training, online help and helpdesk support

SAVE TIME AND MONEY

TruTime calculates accurate lead in and lead out times by comparing clocked time with tachograph start and/or end times

TruTime supports duty of care and H&S obligations, including HR records (absences, training, holidays, personnel and more)

Allows for night shift activity using pre-established shifts

Complete security using encryption and password facilities

Alerts system to highlight non-attendance
